Beeswax

8104, 8105, 8108, 8109, 8138, 8139

Ingredients:

Cera Alba

Information:

This classic wax improves the texture and skin adhesion of formulations. It is available in standard, pharmaceutical and organic qualities with colors ranging from white to intense yellow.

MP:
61-66

SAMPLE >

Carnauba Wax

2442, 2442L, 5023, 5026, 6642

Ingredients:

Copernicia Cerifera Cera

Information:

Very hard wax with a high melting point. It improves the temperature resistance and structure of stick preparations and acts as a dispersing aid in mascaras. Available in standard quality derived from middle-aged leaves, pharmaceutical quality made from young leaves, and organic quality. The organic quality provides the best oil-binding capacity.

MP:
80–86
